

Mr. Mooring and Mr. Musante-

We have have lived on Sunset Avenue for eight years. We have four children. We have watched cars speed - and I don't mean drive fast - I mean fly down the street so fast they have to slam on the breaks and skid before swerving onto Amity Street - for those eight years. We do not get the volume of traffic that Lincoln does (although that will surely change if you elect to put speed tables solely on Lincoln and ignore Sunset and Fearing), but the *relatively* lighter traffic only seems to encourage some drivers to try to set records for speed on our long, straight street.

We completely support the proposed speed tables on Lincoln Ave. However, we also strongly request that the town put speed tables on Sunset Avenue when the road is repaved. Putting speed tables only on Lincoln will not only ignore the problem on Sunset, I believe it will create more dangerous traffic patterns on Sunset Avenue.

Please help us make this neighborhood safe for pedestrians of all ages.

I would also like to publicly thank Phil Jackson and Steve Braun for the tireless and selfless work they have put into this cause.

Sarah Sanford
